

Brochures & menus

Create a readable menu. Know what you can edit. Save the right result.

We will create a Friday Coffee menu, correct one price and save it. Then we will show the separate Image Maker artwork option: review exact copy first, approve the artwork and revise the whole image. These two formats have different editing controls.

Before you start

- Have the real items, prices, contact details and useful images or references ready. Bruno writes and designs the document. Supply existing approved copy only if you already have it; writing every heading and paragraph yourself is optional.
- Choose Editable brochure if you need to change individual words, prices or pictures later. Choose Image Maker brochure for one composed artwork whose text is part of the image.
- Production requests can use your service allowance. Save concept preserves a plan; Approve & create artwork starts image production. Check your current allowance before submitting.

All screenshots show the actual Bruno interface with a fictional Atelier Demo account and simulated requests. Sample deck pages, card artwork and menus are illustrative content supplied to the real renderers, not proof of a new paid generation. No real account, payment or provider was changed.

Wait for the saved result

Read the finished page

Wait for the save confirmation

Tell Bruno what you need and supply the facts

Review, then submit once

Choose a comfortable editing view

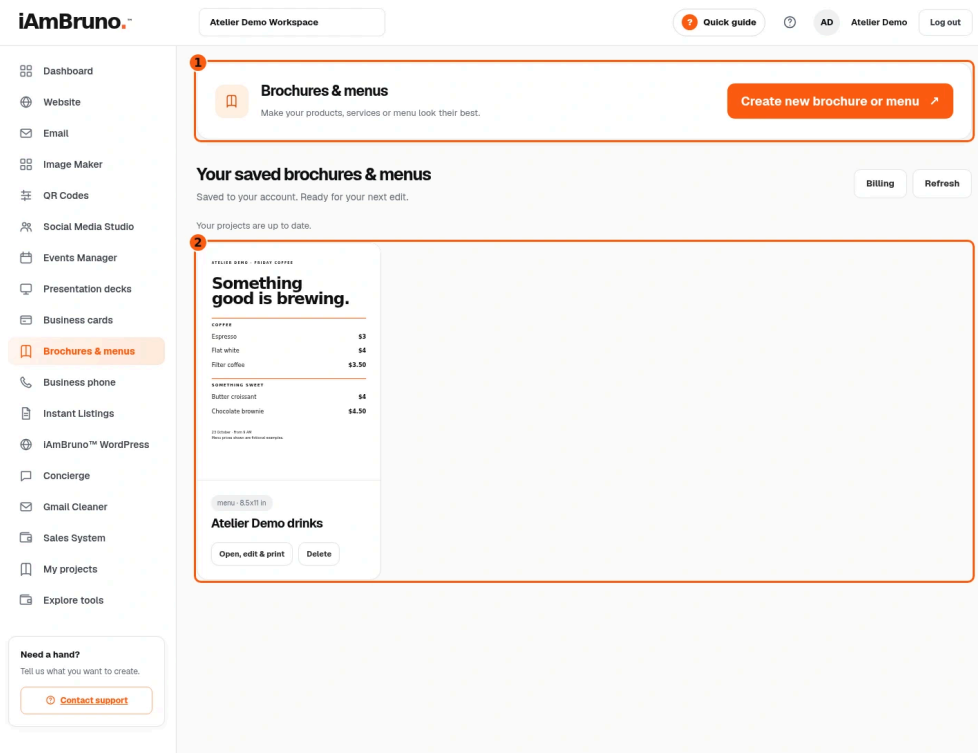

Correct one price directly

Reopen the saved menu later

Alternative: choose Image Maker artwork
Save and reopen the concept
Understand what the image format contains
Check the revision and save it

Check every word before producing artwork
Wait for the artwork
Revise the whole artwork deliberately

Start or reopen a document

Atelier Demo - Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 Start a new document.
- 2 Your saved documents remain in the library.

Choose Brochures & menus from the main menu. Saved documents have previews and Open, edit & print actions.

Choose that saved-document action if you want to continue existing work. For a new project, choose Create new brochure or menu.

The example creates a new Friday Coffee menu while retaining the existing drinks document.

WHAT HAPPENS NEXT

The creation form opens without changing the saved documents.

Tell Bruno what you need and supply the facts

What are we creating?

Project name

1

Friday Coffee menu

Tell iAmBruno™ what you need

2

Make a one-page Friday Coffee menu for Atelier Demo. White, black and vivid orange.
Coffee: Espresso \$3, Flat white \$4, Filter coffee \$3.50. Sweet: Butter croissant \$4,
Chocolate brownie \$4.50. Event 23 October from 9 AM. Keep every price readable.

3

Continue →

Atelier Demo - Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 The project's library name.
- 2 Exact content and visual direction.
- 3 Continue to the format choices.

Name the project so you can find it later. We use Friday Coffee menu.

Tell Bruno the intended use and style. Supply factual items, prices, offers and contact details, or add relevant references. Bruno writes and designs the document; you do not have to compose every heading or paragraph. If you already have approved copy, you can supply it for Bruno to use.

Our sample includes five items and a date. Check your own facts before continuing; do not assume generated prices or dates are correct.

WHAT HAPPENS NEXT

The Details step lets you choose document type, size, fold and production format.

Choose the format you will need later

Ready for iAmBruno™?

1

Friday Coffee menu

Make a one-page Friday Coffee menu for Atelier Demo. White, black and vivid orange. Coffee: Espresso \$3, Flat white \$4, Filter coffee \$3.50. Sweet: Butter croissant \$4, Chocolate brownie \$4.50. Event 23 October from 9 AM. Keep every price readable.

Uses your existing brand context.

Decks and Image Maker brochures start with editable concepts. No production images are generated until you approve. Editable brochures are produced as saved background jobs.

2

Back

Create with iAmBruno™

Atelier Demo - Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1

The request that will be used.
- 2

Submit the editable-document job.

Read the name and full request. Use Back if any item, price or instruction is wrong.

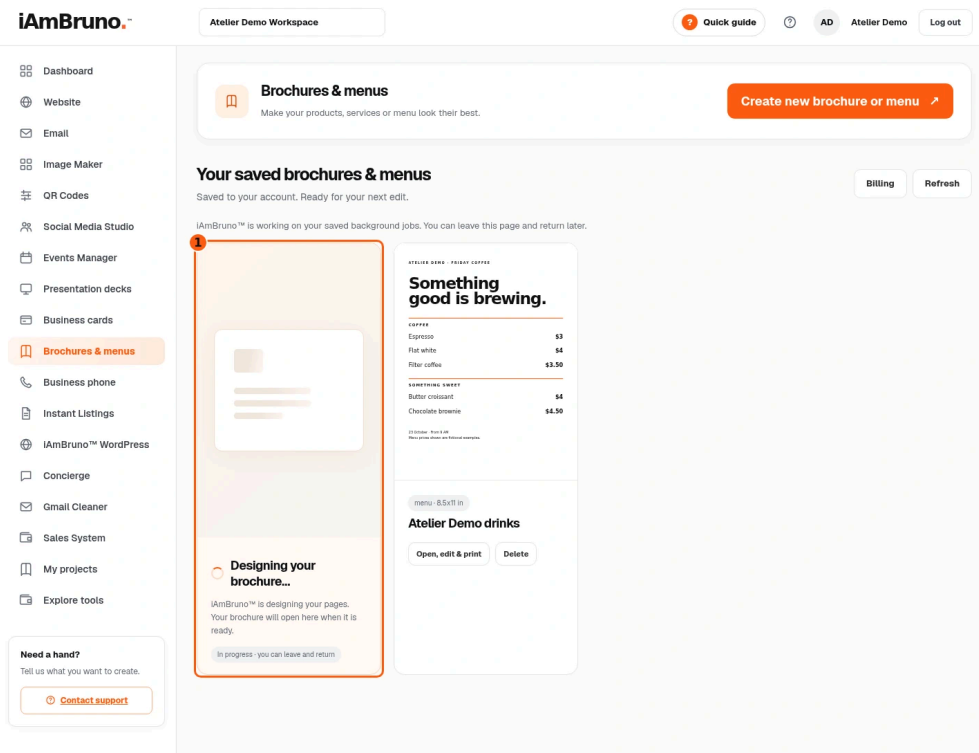

Choose Create with iAmBruno when you intend to submit the editable document for production.

Editable brochures are saved background jobs. This branch does not use the separate image-artwork concept approval screen.

WHAT HAPPENS NEXT

The form closes and the saved generation task appears in the library.

Wait for the saved result

Atelier Demo - Example account and simulated responses. Illustrative sample artwork, not a new live generation.

1 The new document's background task.

Designing your brochure means the saved task is running. Do not create the same job repeatedly while waiting.

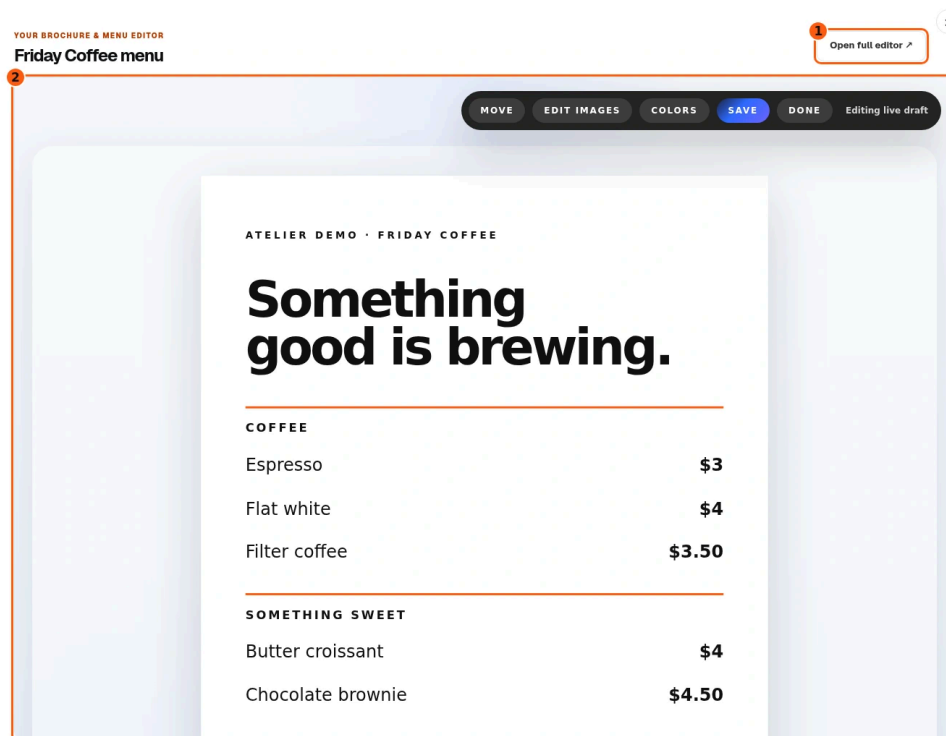

Your earlier documents stay in the library. You can leave and return; Bruno checks the saved task.

When it finishes successfully, the actual document editor opens. An error message means you should resolve the issue before retrying.

WHAT HAPPENS NEXT

The completed document becomes a saved library entry and opens in its editor.

Choose a comfortable editing view

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

1 Open the same editor in a full tab.

2 The real embedded document editor.

The saved editor first opens inside a dashboard dialog. This is the actual document editor, not an image of the form.

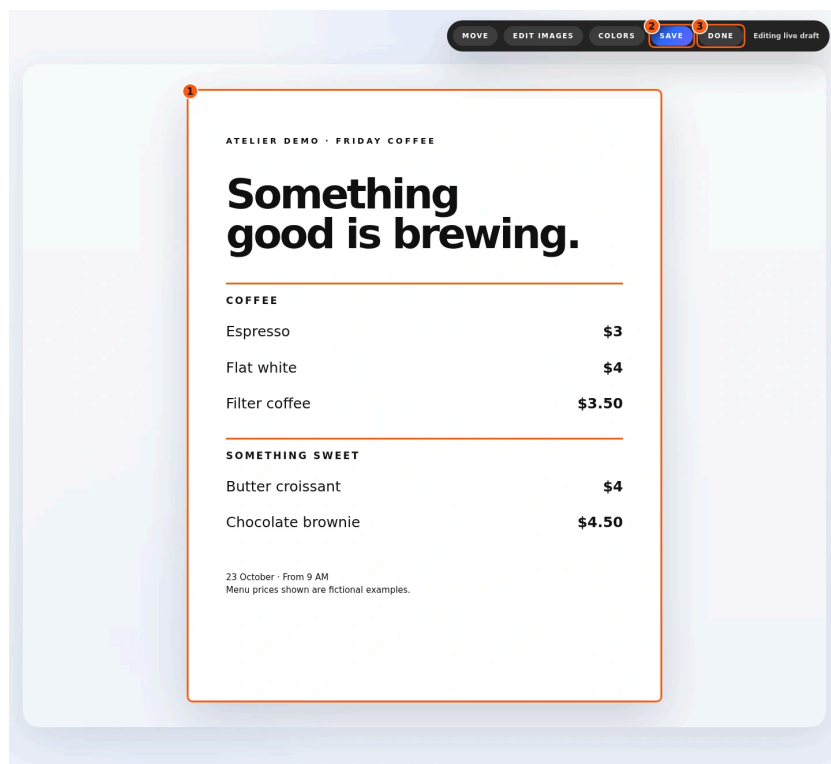

Choose Open full editor for more room, especially when working on a full-page menu. It opens a separate browser tab.

The dashboard library remains available in the original tab. Closing a tab is different from saving edits.

WHAT HAPPENS NEXT

The full editor shows the complete page and its toolbar.

Read the finished page

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 The complete editable menu page.
- 2 Save your changes.
- 3 Return to the Studio library.

Inspect the whole menu: title, item names, prices, date and page edges. The illustrated prices are fictional examples.

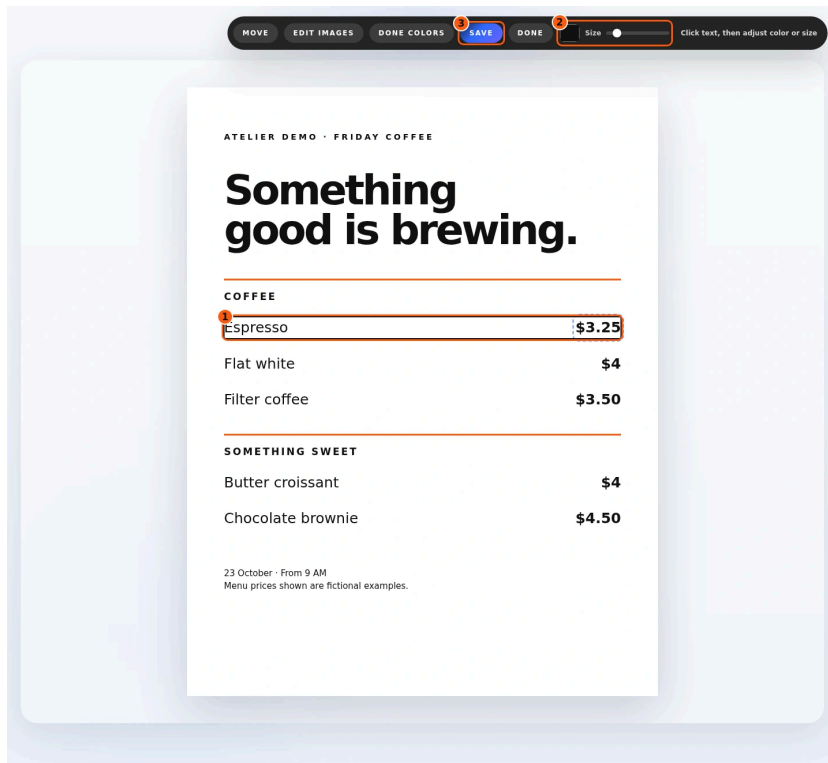

The editable format contains real text elements you can click and change independently. Move changes layout; Edit Images works on a selected picture; Colors exposes text appearance controls.

Save stores your changes. Done returns to Studio. Save deliberately before leaving.

WHAT HAPPENS NEXT

You have inspected the generated layout and can correct a specific word or price.

Correct one price directly

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 The changed Espresso price.
- 2 Colors mode exposes text color and size controls.
- 3 Save the corrected document.

Click the price beside Espresso and replace \$3 with \$3.25. This changes that text; it does not regenerate the entire page.

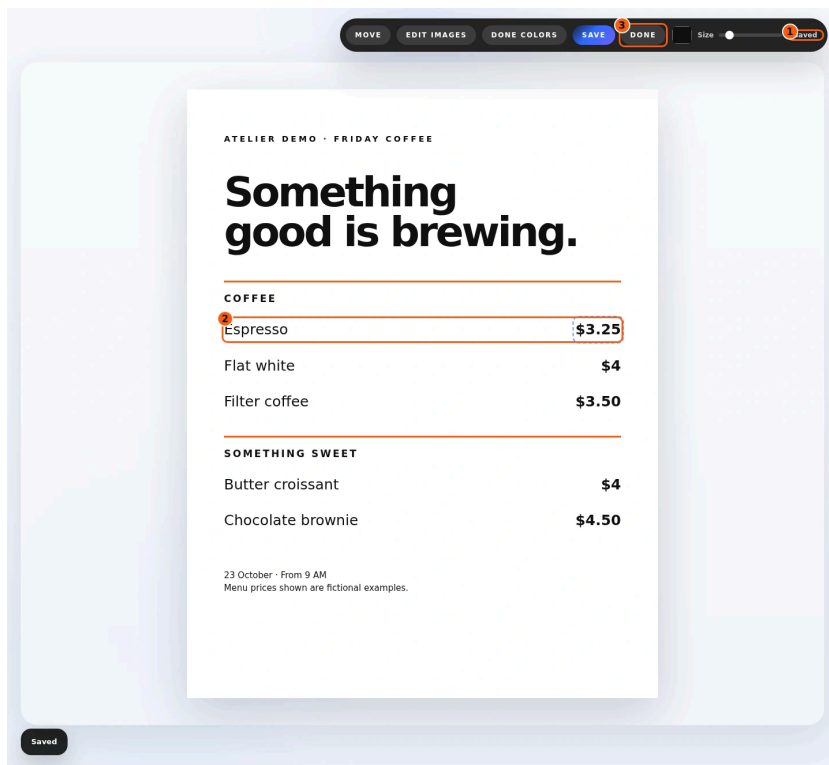

For text appearance, choose Colors and select the text. The color and size controls then appear. Our example leaves the original appearance intact.

Check that the price still fits its line. Choose Save when the change is correct.

WHAT HAPPENS NEXT

The independent price edit is ready to be saved.

Wait for the save confirmation

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 The successful save status.
- 2 The corrected price on the page.
- 3 Done leaves the full editor.

Wait for Saved in the toolbar. If Save failed appears, do not assume the correction is stored.

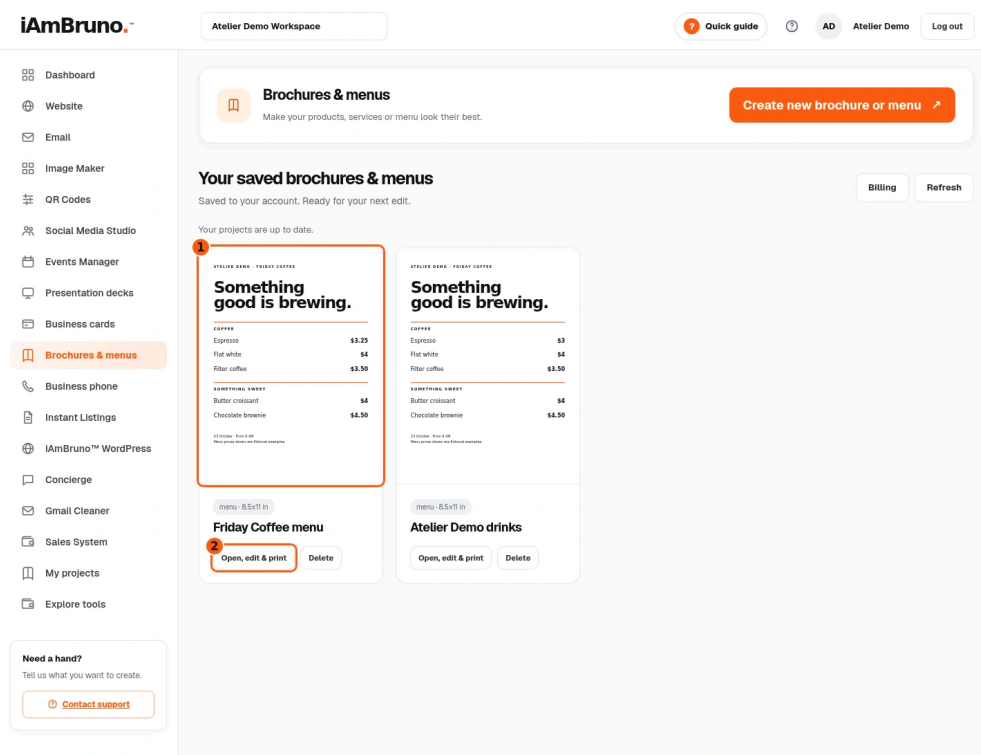

Read the corrected \$3.25 price once more. Choose Done after saving, or close the full-editor tab and return to the dashboard dialog.

In the dashboard dialog, close the editor to return to the library. Refresh if you need to check the latest saved preview.

WHAT HAPPENS NEXT

The saved editable menu retains your price correction.

Reopen the saved menu later

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 The saved menu preview.
- 2 Reopen this exact document.

Find Friday Coffee menu in the library. Its preview reflects the saved document.

Choose Open, edit & print to continue that document. It opens the editor; it is not itself a download button.

The current editor has Save and Done, with no dedicated Print/PDF button. For browser printing, open the full editor and use your browser's Print menu. Inspect its preview before printing; if editor controls appear or page sizing is wrong, request a print-ready file from support.

WHAT HAPPENS NEXT

You can return to the saved editable layout. Saving a document is separate from exporting a print-ready file.

Alternative: choose Image Maker artwork

LET'S MAKE SOMETHING GOOD

Create your next document.

1-Direction 2-Details 3-Review

Make it yours.

☒ Use my existing brand and workspace information

Document

Menu

Paper size Fold

Letter - 8.5 x 11 in No fold

How should we build it?

☐ Editable brochure
A designed print layout with text and images you can edit independently.

1 Image Maker brochure
One beautifully composed artwork, including typography, GPT Image 2 LOW. Review the copy and visual concept first; text is part of the image.

Add your references

Choose Files No file chosen

Drop up to 6 images here: your logo, people, products, notes or design inspiration. These are used with this project.

2

Your references are ready.

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1** Image Maker mode, with text integrated into the artwork.
- 2** The uploaded reference is ready.

Start a new project and fill the direction, then choose Menu and Image Maker brochure in Details.

This mode creates one complete image, including its text. Individual prices will not become independently editable text fields afterward. Choose Editable brochure instead if that is what you need.

Add relevant image references and wait for them to be ready. Continue through the review and submit to prepare the artwork concept.

WHAT HAPPENS NEXT

The exact-copy and visual-direction concept opens before artwork production.

Check every word before producing artwork

IMAGE MAKER BROCHURE

×

Make the concept yours.

Review the exact copy and visual direction. When you approve, Image Maker creates one complete brochure artwork using GPT Image 2 LOW.

Title

Friday Coffee menu

1

Copy to appear on the brochure

COFFEE
Espresso \$3
Flat white \$4
Filter coffee \$3.50

SOMETHING SWEET
Butter croissant \$4
Chocolate brownie \$4.50

2

Visual direction

White background, bold black typography and vivid orange section rules. Preserve every listed price exactly.

Review and edit everything before we create the artwork.

3

Save concept

4

Approve & create artwork

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 The exact intended wording.
- 2 The visual direction.
- 3 Save the concept without creating artwork.
- 4 Approve production when the concept is right.

Bruno has proposed the Copy to appear on the brochure and the Visual direction. Read this generated proposal and check the facts. If it is right, you can approve it unchanged; optionally correct details here or provide your existing approved copy.

Read Bruno’s proposed Visual direction. You can keep it or optionally adjust it. Our example adds a request to preserve all prices while using a white background, black type and vivid orange rules.

Save concept stores this plan only. Approve & create artwork is the separate decision that starts image production.

WHAT HAPPENS NEXT

The checked concept can be saved for later or deliberately approved.

Save and reopen the concept

IMAGE MAKER BROCHURE

Make the concept yours.

Review the exact copy and visual direction. When you approve, Image Maker creates one complete brochure artwork using GPT Image 2 LOW.

Title

Friday Coffee menu

Copy to appear on the brochure

COFFEE
Espresso \$3
Flat white \$4
Filter coffee \$3.50

SOMETHING SWEET
Butter croissant \$4
Chocolate brownie \$4.50

Visual direction

White background, bold black typography and vivid orange section rules. Preserve every listed price exactly.

1

Your concept is saved. No image has been generated yet.

2

Save concept

3

Approve & create artwork

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1

The concept-only save confirmation.
- 2

Save concept does not produce the image.
- 3

Approve & create artwork starts production.

Choose Save concept. Wait for Your concept is saved. No image has been generated yet.

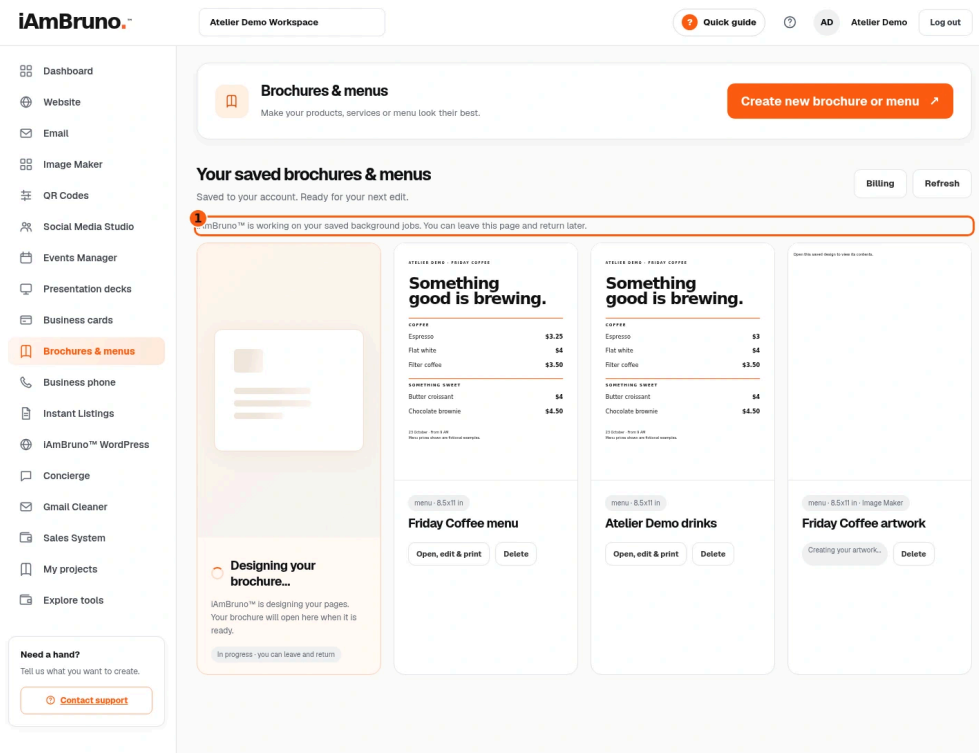

You can close the concept, refresh the library and choose Review concept to reopen the saved text and direction.

When the reopened concept is correct, choose Approve & create artwork. Check carefully before committing: image text is baked into the finished artwork.

WHAT HAPPENS NEXT

The saved plan is preserved. Production begins only when you approve it.

Wait for the artwork

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

1 The saved background-work status.

After approval, Bruno creates the saved artwork in the background. Your editable menu remains a separate project.

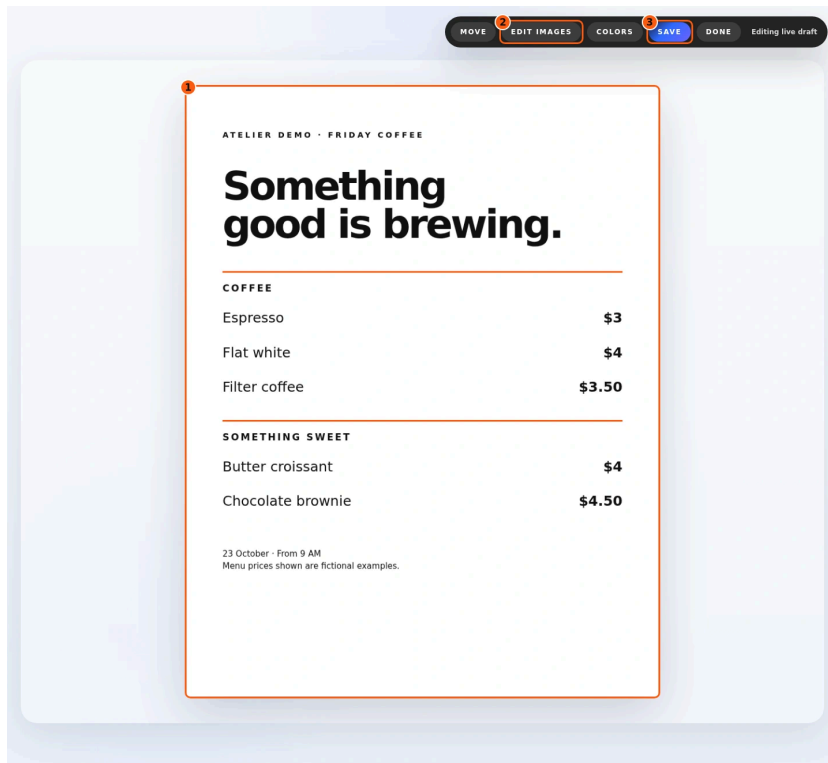

Do not interpret a building status as a finished image. Return or refresh to check the saved job.

A successful result opens in the editor. Check the actual image when it arrives; image generation can introduce spelling or detail errors.

WHAT HAPPENS NEXT

The finished artwork opens as an image inside the document editor.

Understand what the image format contains

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 One complete artwork image.
- 2 Edit Images targets that image.
- 3 Save stores the current document.

Inspect the complete artwork. In this branch, all menu words and prices are pixels inside one picture.

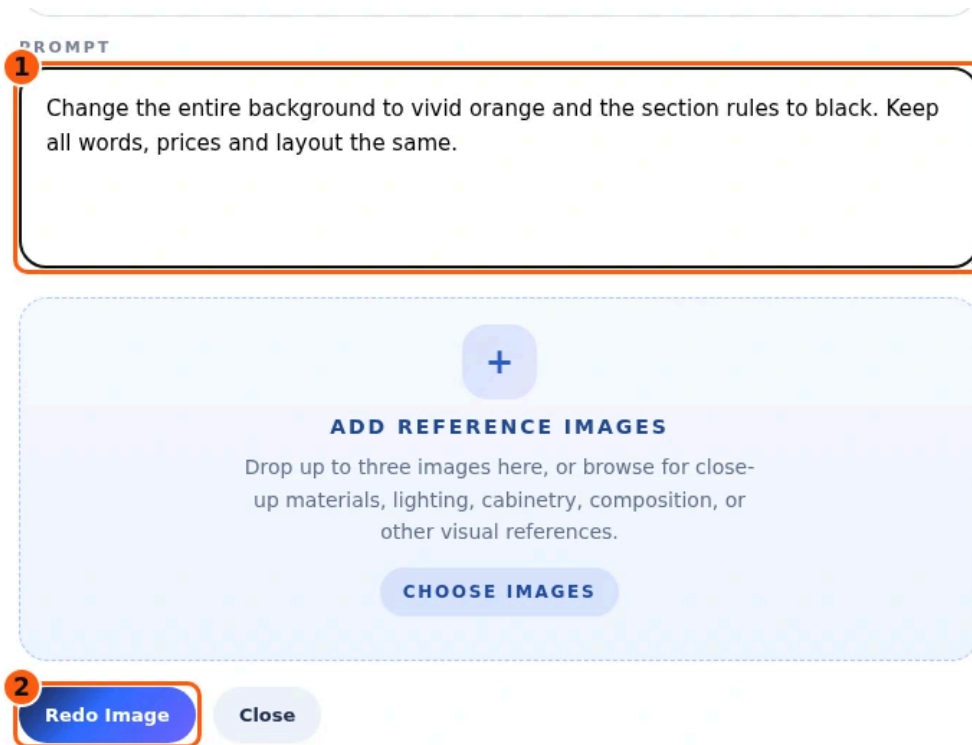

Clicking a price does not let you type a replacement as it did in the editable layout. Use Edit Images to request an image revision.

Check every word and number after any image revision. If frequent price changes are part of your work, use the Editable brochure format for those documents.

WHAT HAPPENS NEXT

You can choose the right revision method without expecting separate editable prices.

Revise the whole artwork deliberately

PROMPT

1 Change the entire background to vivid orange and the section rules to black. Keep all words, prices and layout the same.

+

ADD REFERENCE IMAGES

Drop up to three images here, or browse for close-up materials, lighting, cabinetry, composition, or other visual references.

CHOOSE IMAGES

2 **Redo Image** Close

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 A specific change request for the entire image.
- 2 Submit the selected-image revision.

Choose Edit Images, then click the artwork. The actual image editor opens for that selected picture.

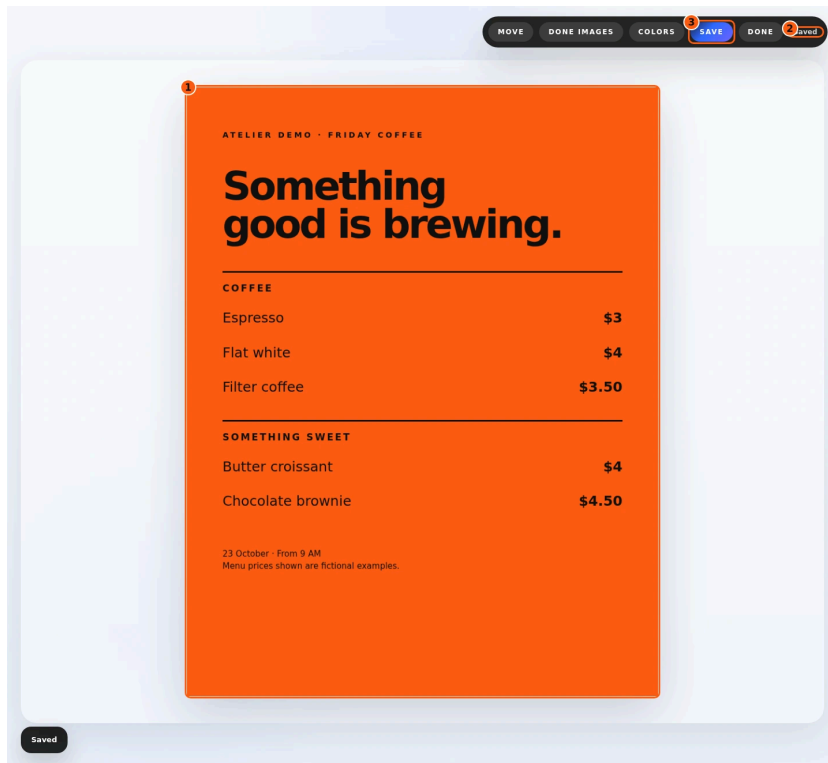

Describe precisely what should change and what should stay. We ask for an orange background and black rules while keeping every word, price and position.

Choose the image-redo action only when ready for another generation request. This is different from saving the existing document.

WHAT HAPPENS NEXT

The image slot is revised in a background task, then the returned image replaces it.

Check the revision and save it

Atelier Demo · Example account and simulated responses. Illustrative sample artwork, not a new live generation.

- 1 The revised whole-image result.
- 2 The successful document-save status.
- 3 Save the revised image in the document.

Review the returned artwork as a new image. Our illustrative result has an orange background and unchanged menu wording and prices.

Choose Save, then wait for Saved. A completed image revision and a saved document are separate confirmations.

Return to the library when finished. For print output, use the full editor and inspect the browser's Print preview; this current editor does not supply a dedicated print-ready PDF export control.

WHAT HAPPENS NEXT

The saved image-format document contains the reviewed revision. The separate editable menu remains available.

Come back whenever you need it.

Use the short Quick guide for a reminder of the main controls. Use this manual for the full task and the related Studio guides for each tool's detailed workflow.

In your dashboard, choose **Quick guide → Show me around** to replay the short tour. Use **Read the guide** or **Download PDF** for these complete instructions.
