

GET STARTED IN THREE STEPS

Gmail Cleaner

Connect Gmail. Start your clean. Review and approve.

Connect Gmail

Start your clean

Review and approve

Start with these three. Explore the optional extras whenever you need them.

Connect Gmail

Choose Connect Gmail and sign in with Google. Check that the address shown is the mailbox you want to clean.

YOUR CONNECTION

Connect your Gmail

Choose the Google account you want to clean.

Your password never comes to iAmBruno™.

Example screen ·

| Your Gmail is connected.

Start your clean

With access active, choose Check new Inbox mail. Let Bruno prepare the recommendations. You can leave and come back.

ONE SIMPLE MONTHLY PRICE

Come back whenever you need.

Check new Inbox mail throughout your paid month. Each run handles up to 100,000 new emails. You approve every mailbox change.

Monthly access until 11/19/2026

Cancel future renewal

Current checkout: PayPal

Sandbox. No live money is charged.

Check new Inbox mail →

Example screen ·

Your recommendations are saved for review.

Review and approve

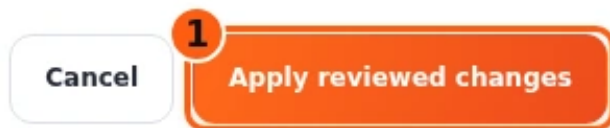

Check the suggestions, then choose Review all changes. Read the summary and choose Apply reviewed changes when you are happy with it.

PLEASE CONFIRM

Apply all remaining recommendations?

Label and archive 14 emails, and move 1 emails to Gmail Trash. 5 emails are kept. Gmail normally removes Trash after 30 days. Only proceed if you have reviewed the recommendations.

Example screen ·

Check the Applied counts for the changes that finished.

OPTIONAL EXTRAS

You can also...

Choose what you want to do next.

Mark unread emails as read

Choose Mark all as read, check the mailbox and count, then confirm. The selected unread messages are marked read; they stay where they are.

Check a suggestion before keeping it

Choose View emails on a group to read its examples. Close the preview and choose Keep on that group if you want those messages left alone.

[Read this extra online ↗](#)

Reopen a saved clean

Use Your purchases to select the saved clean you want. Your progress and results stay with that Gmail connection.
